### A01, A02 & A04 Requisition Mass Upload

<input type="file"/>	Browse...
<input type="button" value="Upload File"/>	<input type="button" value="Clear File Name"/>

This process allows the user to upload a group of requisitions to SAMIS via AFSAC Online. These requisitions will NOT go to your shopping cart but will be transmitted directly to SAMIS. The only edits performed on the upload are to make sure the requisition is an A01, A02 or A04 and the user has authority to submit for a particular country. Within a few minutes you should receive an e-mail showing the rejected records and the number of records that were accepted. You can then correct the rejected requisitions and resubmit. SAMIS edits will be performed during overnight processing and you can check the status the next day by using the Open Document Number Query or the Requisition History interrogation (Part of the Application Suite).

1. Ensure your requisitions are in the proper 80 column MILSTRIP format and saved as a text file or an Excel ".prn" (space delimited format) file. Click here for sample requisition formats. [A01](#) - [A02](#) - [A04](#)

2. Upload the file by clicking the "Browse" button above and locating the file on your hard drive. Select the file and press the "Upload File" button.

You may download mass requisitions from a text file or an Excel '.prn' (space delimited format) utilizing the 80 column MILSTRIP format for the appropriate document identifier (A01, A02, and A04). Note that requisition formats are provided via hyperlinks.

## Repair/Replace Cross-Reference List

AFSAC

[AFSAC Online Home](#) | [Business Applications](#) | [Feedback](#) | [Help](#)

Air Force Security Assistance Center  
Wright Patterson AFB, Ohio 45433

### Repair & Replace Cross Reference

Doc #	<input type="text"/>
Document Number?	<input type="radio"/> Return <input checked="" type="radio"/> Replace

Country	<input type="text"/>
Case	<input type="text"/>
Line	<input type="text"/>
Requisition?	<input type="radio"/> Open <input checked="" type="radio"/> Active

Enter [Document Number](#), [Country](#), [Country/Case](#) or [Country/Case/Line](#).

This query enables the user to cross-reference between the document number that country submitted a repairable item against and the H-coded replacement document number that the repaired item is assigned. You may query individual document numbers based on the country's 'Return' document number or the USG 'Replacement' document number. You may also query by Country/Case/Line.

- AFSAC's goal is to satisfy our customers' needs. This Web based service is another attempt to achieve that goal. It is not intended to replace our valued personal interface with our customer. Because our customers are worldwide, we have developed this interface to provide easy, around-the-clock access to information about our services.

- Business applications  
(Use the navigation links on the left to access the business applications)

We currently offer a range of Business Applications to provide our customers visibility into their country programs.

The Application Suite is a re-host of the most commonly used SAMIS queries such as:

Story, Catalog Data, Contract Data

There are a number of Logistics and Financial as well as Worldwide Warehouse (WWRS), Technical Order Index, Parts Ordering System (PROS) II Monthly Requisitions, and Supply Chain Management (SCM) Functionality.
